## DISCLOSURE REGARDING FORWARD-LOOKING STATEMENTS

This prospectus supplement contains “forward-looking” statements within the meaning of the Private Securities Litigation Reform Act of 1995. These forward-looking statements reflect our current expectations regarding our future results of operations, economic performance, financial condition and achievements. These forward-looking statements can be identified by words such as “anticipate,” “believe,” “estimate,” “expect,” “intend,” “plan,” “pursue,” “strategy,” “will” and similar expressions. One can also identify forward-looking statements by the fact that they do not relate strictly to historical or current facts, and may reflect anticipated cost savings or implementation of our strategic plan. These statements reflect our current plans and expectations and are based on information currently available to us. They rely on several assumptions regarding future events and estimates which could be inaccurate and which are inherently subject to risks and uncertainties.

Forward-looking statements are subject to inherent uncertainties, risks and changes in circumstances that are difficult to predict. Our actual results may differ materially from those contemplated by the forward-looking statements. We wish to caution the reader that the following important factors and those important factors described in our other Securities and Exchange Commission filings, including our 2019 Annual Report on Form 10-K and subsequent quarterly reports on Form 10-Q, could affect our actual results and could cause such results to vary materially from those expressed in any forward-looking statements made by, or on behalf of, us: our ability to execute on and realize the expected benefits from our strategy, including growing sales in snacks and maintaining our market share position in soup; the impact of strong competitive responses to our efforts to leverage brand power with product innovation, promotional programs and new advertising; the risks associated with trade and consumer acceptance of product improvements, shelving initiatives, new products and pricing and promotional strategies; our indebtedness and ability to pay such indebtedness; impacts of, and associated responses to, the novel coronavirus (“COVID-19”) pandemic; our ability to realize projected cost savings and benefits from cost savings initiatives and the integration of recent acquisitions; disruptions to our supply chain and/or operations, as well as fluctuations in the supply of and inflation in energy and raw and packaging materials cost; our ability to manage changes to our organizational structure and/or business processes, including selling, distribution, manufacturing and information management systems or processes; changes in consumer demand for our products and favorable perception of our brands; changing inventory management practices by certain of our key customers; a changing customer landscape, with value and e-commerce retailers expanding their market presence, while certain of our key customers maintain significance to our business; product quality and safety issues, including recalls and product liabilities; the possible disruption to the independent contractor

distribution models used by certain of our businesses, including as a result of litigation or regulatory actions affecting their independent contractor classification; the uncertainties of litigation and regulatory actions against us; the costs, disruption and diversion of management's attention associated with activist investors; a material failure in or breach of our information technology systems; impairment to goodwill or other intangible assets; our ability to protect our intellectual property rights; increased liabilities and costs related to our defined benefit pension plans; our ability to attract and retain key talent; changes in currency exchange rates, tax rates, interest rates, debt and equity markets, inflation rates, economic conditions, law, regulation and other external factors; and unforeseen business disruptions in one or more of our markets due to political instability, civil disobedience, terrorism, armed hostilities, extreme weather conditions, natural disasters, other pandemics or other calamities.

This discussion of uncertainties is by no means exhaustive but is designed to highlight important factors that may impact our outlook. We disclaim any obligation or intent to update forward-looking statements made by us in order to reflect new information, events or circumstances after the date they are made.

## SUMMARY

*This summary highlights selected information about our company and the offering and may not contain all of the information that is important to you. To better understand this offering, you should read the entire prospectus supplement and the accompanying prospectus carefully, as well as those additional documents to which we refer you. See “Where You Can Find More Information.”*

### **Campbell Soup Company**

We are a manufacturer and marketer of high-quality, branded food and beverage products. We incorporated as a business organization under the laws of New Jersey on November 23, 1922; however, through predecessor organizations, our beginnings in the food business can be traced back to 1869.

We manage our businesses in two segments as follows:

- Meals & Beverages segment, which includes the retail and foodservice businesses in the U.S. and Canada. The segment includes the following products: *Campbell’s* condensed and ready-to-serve soups; *Swanson* broth and stocks; *Pacific Foods* broth, soups, non-dairy beverages; *Prego* pasta sauces; *Pace* Mexican sauces; *Campbell’s* gravies, pasta, beans and dinner sauces; *Swanson* canned poultry; *Plum* baby food and snacks; *V8* juices and beverages; and *Campbell’s* tomato juice; and
- Snacks segment, which consists of *Pepperidge Farm* cookies, crackers, fresh bakery and frozen products in U.S. retail, including *Milano* cookies and *Goldfish* crackers; and *Snyder’s of Hanover* pretzels, *Lance* sandwich crackers, *Cape Cod* and *Kettle Brand* potato chips, *Late July* snacks, *Snack Factory* Pretzel Crisps, *Pop Secret* popcorn, *Emerald* nuts, and other snacking products in the U.S. and Canada. The segment includes the retail business in Latin America. The segment also includes our European chips business, which was sold on October 11, 2019.

### **Recent Developments**

#### ***Impact of COVID-19***

With the spread of COVID-19 in North America, we are currently experiencing significantly higher sales for our retail products in both our Meals & Beverages and Snacks segments, especially in retail chains and large grocery supermarkets. This result is attributable to a change in retail demand, as consumers have significantly increased their current food purchases, which has more than offset the declines in our foodservice business. The recent higher sales trends of our retail products may lessen or reverse in the coming months if customers or consumers alter their purchasing habits.

With the current increased demand for our retail products, we have made changes in our supply chain network to increase overall production, including modifying production schedules and temporarily adjusting product mix. While we are experiencing higher costs in certain areas such as transportation, distribution, and front-line employee compensation, as well as incremental costs associated with newly added health screenings, temperature checks and enhanced cleaning and sanitation protocols to protect our employees and product quality standards, we are benefitting overall from increased product demand as we leverage our supply chain assets. We are also benefitting from favorable product mix and lower administrative expenses. These benefits may lessen or reverse in the coming months if customers or consumers alter their purchasing habits and/or cost trends change or accelerate in ways we did not anticipate.

At this time, we are unable to predict with any certainty the nature, timing or magnitude of any changes in future sales and/or earnings attributable to the spread of COVID-19 in North America. See “Risk Factors.”

<b>Risk Factors</b>	Any investment in the notes involves risks. See “Risk Factors” beginning on page S-5 of this prospectus supplement.

## RISK FACTORS

*An investment in the notes involves various risks. In making an investment decision, you should carefully consider the risks and uncertainties described below and the other information in this prospectus supplement, the accompanying prospectus and in the documents incorporated by reference herein and therein, including those risks and uncertainties identified under the heading “Risk Factors” in our Annual Report on Form 10-K for the year ended July 28, 2019, our Quarterly Report on Form 10-Q for the period ended January 26, 2020 and our Form 8-K filed on April 20, 2020. Such risks and uncertainties could materially adversely affect our business, financial condition and results of operations. Additional risks and uncertainties not presently known to us or that we currently deem immaterial also may impair our business operations and financial condition.*

### **The notes will be effectively subordinated to any secured debt we may incur and to the debt of our subsidiaries, which may limit your recovery.**

The notes are our unsecured obligations, and will rank equally in right of payment with all of our other existing and future unsecured, senior obligations and are structurally subordinated to the existing and future indebtedness and other liabilities of our subsidiaries. The notes are not secured by any of our assets. Any future claims of secured lenders with respect to assets securing their loans will be prior to any claim of the holders of the notes with respect to those assets. As of our fiscal month ended March 22, 2020, we did not have any secured debt outstanding.

Our subsidiaries are separate and distinct legal entities. Our subsidiaries do not guarantee the notes and will have no obligation to pay any amounts due pursuant to the notes or otherwise to make any funds available to us to repay our obligations, whether by dividends, loans or other payments. The notes are structurally subordinated to indebtedness and other liabilities of our subsidiaries. Our rights to receive the assets of any subsidiary upon its liquidation or reorganization, and the ability of holders of the notes to benefit indirectly therefrom, will be effectively subordinated to the claims of creditors of that subsidiary, including trade creditors.

### **There are no established public trading markets for the notes.**

Each series of notes will constitute a new issue of securities with no established trading market. If a trading market does not develop or is not maintained, holders of a series of notes may find it difficult or impossible to resell their notes. If a trading market were to develop, the notes of a series may trade at prices that are higher or lower than their initial offering price, depending on many factors, including prevailing interest rates, our operating results and financial condition and the market for similar securities. The underwriters are not obligated to make a market in any series of notes, and if they do so they may discontinue any market-making activity at any time without notice. Accordingly, there can be no assurance regarding any future development of a trading market for any series of notes or the ability of holders of the notes to sell their notes at all or the price at which such holders may be able to sell their notes.

### **Changes in our credit ratings or the financial and credit markets could adversely affect the market price of the notes.**

The market price of the notes will be based on a number of factors, including:

- our ratings with major credit rating agencies, including with respect to each series of notes;
- the prevailing interest rates being paid by companies similar to us;
- our operating results, financial condition, financial performance and future prospects; and
- the overall condition of the financial and credit markets.

Credit rating agencies continually review their ratings for the companies that they follow, including us, and revise those ratings as warranted. The credit rating agencies also evaluate the food and beverage industry as a

## [Table of Contents](#)

whole and may change their credit rating for us based on their overall view of our businesses and the industry. In addition, the condition of the financial and credit markets and prevailing interest rates have fluctuated in the past and are likely to fluctuate in the future. In the past, there have been significant disruptions in the global economy, including volatile credit and capital market conditions. Fluctuations in these factors or a worsening of market conditions could have an adverse effect on the price of the notes. In particular, the U.S. Federal Reserve or other central banks may raise interest rates or expectations regarding an interest rate increase could change. Increases in prevailing interest rates or interest rate expectations could significantly affect the price of the notes.

### **Despite our current debt levels, we may incur additional debt.**

The notes and the senior indenture under which the notes will be issued do not place any limitation on the amount of debt that may be incurred by us. Our incurrence of additional debt may have important consequences for you as a holder of the notes, including making it more difficult for us to satisfy our obligations with respect to the notes, a loss in the market value of your notes and a risk that the credit rating of the notes is lowered or withdrawn. Our indebtedness as of our fiscal month ended March 22, 2020 was approximately \$6.0 billion. On March 30, 2020, we incurred \$300 million in additional indebtedness under our committed revolving credit facility. We intend to use the net proceeds of this offering to repay the \$300 million in outstanding borrowings under our committed revolving credit facility, and we intend to use the remaining net proceeds to repay a portion of our outstanding commercial paper as it comes due and for general corporate purposes.

### **There are limited covenants in the senior indenture governing the notes.**

The senior indenture governing the notes contains limited covenants, including those restricting our ability and certain of our subsidiaries' ability to incur certain debt secured by mortgages, pledges or liens, engage in sale/leaseback transactions or merge or consolidate with another entity. The limitations on incurring debt secured by mortgages, pledges or liens and sale/leaseback transactions contain certain exceptions. The covenants in the senior indenture do not limit the amount of additional debt we may incur and do not require us to maintain any financial ratios or specific levels of net worth, revenue, income, cash flows or liquidity. See "Description of Debt Securities" in the accompanying prospectus. In light of these exceptions, holders of the notes may be effectively subordinated to any new debt we may incur. In addition, we are not restricted from paying dividends or repurchasing our securities under the senior indenture.

### **We may not be able to repurchase the notes upon a change of control.**

Upon the occurrence of a Change of Control Triggering Event (as defined in "Description of the Notes—Offer to Purchase Upon a Change of Control Triggering Event"), with respect to a series of notes, unless we have previously exercised our right to redeem the notes of such series, each holder of such notes will have the right to require us to repurchase all or any part of such holder's notes at a price equal to 101% of their principal amount, plus accrued and unpaid interest, if any, to, but not including, the date of repurchase. If we experience a Change of Control Triggering Event, there can be no assurance that we would have sufficient financial resources available to satisfy our obligations to repurchase the notes. Our failure to repurchase the notes as required would result in a default under the senior indenture that will govern the notes, which could have material adverse consequences for us and the holders of the notes. See "Description of the Notes—Offer to Purchase Upon a Change of Control Triggering Event" in this prospectus supplement.

### **The outbreak of COVID-19 and associated responses could adversely impact our business and results of operations.**

The COVID-19 pandemic has significantly impacted economic activity and markets throughout the world. In response, governmental authorities have implemented numerous measures in an attempt to contain the virus, such as travel bans and restrictions, quarantines, shelter-in-place orders and business shutdowns. These impacts

## [Table of Contents](#)

and associated responses of the COVID-19 pandemic could adversely impact our business and results of operations in a number of ways, including but not limited to:

- a shutdown of one or more of our manufacturing, warehousing or distribution facilities, or disruption in our supply chain, including but not limited to, as a result of illness, government restrictions or other workforce disruptions;
- the failure of third parties on which we rely, including but not limited to, those that supply our packaging, ingredients, equipment and other necessary operating materials, co-manufacturers and independent contractors, to meet their obligations to us, or significant disruptions in their ability to do so;
- a strain on our supply chain, which could result from continued increased retailer and consumer demand for our products;
- a disruption to our distribution capabilities or to our distribution channels, including those of our suppliers, contract manufacturers, logistics service providers or independent distributors;
- reductions in the availability of one or more of our products as we prioritize the production of other products due to increased demand;
- new or escalated government or regulatory responses in markets where we manufacture, sell or distribute our products, or in the markets of third parties on which we rely, could prevent or disrupt our business operations;
- continued commodity cost volatility, which may not be sufficiently offset by our commodity hedging activities;
- continued pricing and access volatility in the capital and commercial paper markets, which might cause us to not be able to continue to access preferred sources of liquidity when we would like, and our borrowing costs could increase;
- we have experienced higher costs in certain areas such as transportation, distribution, and front-line employee compensation, as well as incremental costs associated with newly added health screenings, temperature checks and enhanced cleaning and sanitation protocols to protect our employees and product quality standards, which we expect could continue or could increase in these or other areas;
- while we have experienced increased demand for our retail products, we may experience significant reductions or volatility in demand for one or more of our products, which may be caused by, among other things: the temporary inability of consumers to purchase our products due to illness, quarantine or other travel restrictions, or financial hardship; the easing of governmental authority restrictions and business closings; or pantry-loading activity;
- a change in demand for or availability of our products as a result of retailers, distributors, or carriers modifying their inventory, fulfillment or shipping practices;
- an inability to effectively modify our trade promotion and advertising activities to reflect changing consumer shopping habits due to, among other things, reduced in-store visits and travel restrictions;
- a shift in consumer spending as a result of an economic downturn could result in consumers moving to private label or lower price products; and
- a continued decrease in demand at restaurants or other away from home dining establishments resulting from government restrictions and social distancing measures, which adversely affects our foodservice business.

Further, we have recently delayed the implementation of system upgrades and certain other cost-saving and enabler projects due to the COVID-19 pandemic. Continued disruptions and uncertainties related to the COVID-19 pandemic for a sustained period of time could result in additional delays or modifications to our strategic plans and other initiatives and hinder our ability to achieve our cost savings and enabler objectives on the same timelines.

---

[Table of Contents](#)

These and other impacts of the COVID-19 pandemic could have the effect of heightening many of the other risk factors incorporated by reference herein. The ultimate impact depends on the severity and duration of the current COVID-19 pandemic and actions taken by governmental authorities and other third parties in response, each of which is uncertain, rapidly changing and difficult to predict. Any of these disruptions could adversely impact our business and results of operations.

## USE OF PROCEEDS

We estimate that we will receive net proceeds of approximately \$988 million from the sale of the notes in this offering (after deducting underwriting discounts and our estimated offering expenses). We intend to use \$300 million of the net proceeds from the sale of the notes in this offering to repay outstanding borrowings under our revolving credit facility.

We intend to use the remaining net proceeds from the sale of the notes in this offering to repay a portion of our outstanding commercial paper as it comes due and for general corporate purposes.

On March 22, 2020, we had approximately \$1,105 million of commercial paper borrowings, which had a weighted-average maturity of 84 days and had a weighted-average annual interest rate of 2.45%. On March 30, 2020, we borrowed \$300 million under our committed revolving credit facility that matures on December 9, 2021, which carries an interest rate of 2.34% as of the date of this prospectus. We used the borrowing under our committed revolving credit facility for the repayment of commercial paper and additional cash on hand.

Certain of the underwriters or their respective affiliates may receive a portion of the net proceeds from this offering that are used to repay outstanding borrowings under our revolving credit facility. See “Underwriting.”

### **Certain Definitions**

“Adjusted Treasury Rate” means, with respect to a series of notes and any redemption date, the rate per annum equal to the semi-annual equivalent yield to maturity of the Comparable Treasury Issue for such series of notes, assuming a price for the Comparable Treasury Issue for such series of notes (expressed as a percentage of its principal amount) equal to the Comparable Treasury Price for such series of notes and such redemption date.

## [Table of Contents](#)

“Comparable Treasury Issue” means, with respect to a series of notes, the United States Treasury security selected by a Quotation Agent as having a maturity comparable to the remaining term of such series of notes (assuming for this purpose that such series of notes matured (i) in the case of the 2030 notes, on January 24, 2030 (three months prior to the maturity date of the 2030 notes) and (ii) in the case of the 2050 notes, on October 24, 2049 (six months prior to the maturity date of the 2050 notes)) to be redeemed that would be utilized, at the time of selection and in accordance with customary financial practice, in pricing new issues of corporate debt securities of comparable maturity to the remaining term of such series of notes (assuming for this purpose that such series of notes matured on the date set forth in the prior parenthetical in this definition).

“Comparable Treasury Price” means, with respect to a series of notes and any redemption date, (1) the average of the Reference Treasury Dealer Quotations for such series of notes and such redemption date, after excluding the highest and lowest such Reference Treasury Dealer Quotations, or (2) if we obtain fewer than three such Reference Treasury Dealer Quotations, the average of all such Reference Treasury Dealer Quotations.

“New York Business Day” means any day which is not a Saturday, Sunday, or a day on which commercial banking institutions are authorized or obligated by law, regulation or executive order to be closed in New York City.

“Quotation Agent” means the Reference Treasury Dealer appointed by us.

“Reference Treasury Dealer” means (1) Barclays Capital Inc., BofA Securities, Inc., J.P. Morgan Securities LLC and Citigroup Global Markets Inc. and their respective successors; provided, however, that if any of the foregoing shall cease to be a primary U.S. Government securities dealer in the State of New York or the State of Connecticut (a “Primary Treasury Dealer”), we shall substitute therefor another Primary Treasury Dealer; and (2) any other Primary Treasury Dealer selected by us.

“Reference Treasury Dealer Quotations” means, with respect to each Reference Treasury Dealer and any redemption date for a series of notes, the average, as determined by us, of the bid and asked prices for the Comparable Treasury Issue for such notes (expressed in each case as a percentage of its principal amount) quoted in writing to us by such Reference Treasury Dealer at 5:00 p.m. on the third New York Business Day preceding such redemption date.

### **Offer to Purchase Upon a Change of Control Triggering Event**

Upon the occurrence of a Change of Control Triggering Event with respect to the notes of a series, unless we have exercised our right to redeem all of the notes of such series as described under “—Optional Redemption,” each holder of notes of such series will have the right to require us to purchase all or a portion of such holder’s notes of such series pursuant to the offer described below (the “Change of Control Offer”), at a purchase price in cash (the “Change of Control Payment”) equal to 101% of the principal amount thereof plus accrued and unpaid interest, if any, to the date of purchase, provided that any payment of interest becoming due on or prior to the Change of Control Payment Date shall be payable to the holders of the notes of such series registered as such on the relevant record date.

Within 30 days following the date upon which the Change of Control Triggering Event occurs with respect to the notes of a series, or at our option, prior to any Change of Control but after the public announcement of the pending Change of Control, we will be required to send, by first class mail, a notice to each holder of notes of such series, with a copy to the trustee, which notice will govern the terms of the Change of Control Offer and describe the Change of Control Triggering Event. Such notice will state, among other things, the purchase date, which must be no earlier than 30 days nor later than 60 days from the date such notice is mailed, other than as may be required by law (the “Change of Control Payment Date”). The notice, if mailed prior to the date of consummation of the Change of Control, will state that the Change of Control Offer is conditioned on the Change of Control being consummated on or prior to the Change of Control Payment Date.

## Table of Contents

Upon the Change of Control Payment Date with respect to the notes of a series, we will, to the extent lawful:

- accept for payment all notes of such series or portions of notes of such series properly tendered and not withdrawn pursuant to the Change of Control Offer;
- deposit with the paying agent an amount equal to the Change of Control Payment in respect of all notes of such series or portions of notes of such series properly tendered; and
- deliver, or cause to be delivered, to the trustee the notes of such series properly accepted together with a certificate, executed by our officers, stating the aggregate principal amount of notes of such series or portions of notes of such series being purchased. We will not be required to make a Change of Control Offer with respect to the notes of a series, if a third party makes such an offer in the manner, at the times and otherwise in compliance with the requirements for such an offer made by us and such third party purchases all notes of such series properly tendered and not withdrawn under its offer.

“Capital Stock”, as applied to the stock of any corporation, means the capital stock of every class whether now or hereafter authorized, regardless of whether such capital stock shall be limited to a fixed sum or percentage with respect to the rights of the holders thereof to participate in dividends and in the distribution of assets upon the voluntary or involuntary liquidation, dissolution or winding up of such corporation.

“Change of Control” means the occurrence of any of the following:

- (1) the sale, conveyance, transfer or lease of our properties and assets substantially as an entirety (other than by way of merger or consolidation) to any “person” (as that term is used in Section 13(d)(3) of the Exchange Act), other than us or one of our subsidiaries;
- (2) the first day on which a majority of the members of our Board of Directors are not Continuing Directors; or
- (3) the consummation of any transaction or series of related transactions (including, without limitation, any merger or consolidation) the result of which is that any “person” (as that term is used in Section 13(d)(3) of the Exchange Act), other than us or one of our subsidiaries, becomes the beneficial owner, directly or indirectly, of more than 50% of the then outstanding shares of our Voting Stock, measured by voting power rather than number of shares; provided, that the consummation of any such transaction will not be considered to be a Change of Control if (a) we become a direct or indirect wholly-owned subsidiary of a holding company and (b) immediately following such transaction, (x) the direct or indirect holders of the Voting Stock of the holding company are substantially the same as the holders of our Voting Stock immediately prior to such transaction or (y) no “person” (as that term is used in Section 13(d) (3) of the Exchange Act) is the beneficial owner, directly or indirectly, of more than 50% of the Voting Stock of such holding company.

“Change of Control Triggering Event” means, with respect to a series of notes, (1) the ratings on the notes of such series are downgraded by each of the Ratings Agencies during the 60-day period (the “Trigger Period”) commencing on the earlier of (i) the occurrence of a Change of Control or (ii) the first public announcement of the occurrence of a Change of Control or our intention to effect a Change of Control (which Trigger Period will be extended so long as the ratings on the notes of such series are under publicly announced consideration for possible downgrade by any of the Ratings Agencies) and (2) the notes of such series are rated below an Investment Grade rating by each of the Ratings Agencies on any date during the Trigger Period; provided that a Change of Control Triggering Event will not be deemed to have occurred in respect of a particular Change of Control and such series of notes if each Ratings Agency does not publicly announce or confirm or inform the trustee in writing at our request that the reduction was the result, in whole or in part, of any event or circumstance comprised of or arising as a result of, or in respect of, the Change of Control (whether or not the applicable Change of Control has occurred at the time of the Change of Control Triggering Event). Notwithstanding the foregoing, no Change of Control Triggering Event will be deemed to have occurred in connection with any particular Change of Control unless and until such Change of Control has actually been consummated.

## [Table of Contents](#)

“Continuing Directors” means, as of any date of determination, any member of our Board of Directors who (1) was a member of such Board of Directors on April 24, 2020; or (2) was nominated for election or elected to such Board of Directors with the approval of a majority of the Continuing Directors who were members of such Board of Directors at the time of such nomination or election (either by a specific vote or by approval of our proxy statement in which such member was named as a nominee for election as a director).

“Investment Grade” means a rating of Baa3 or better by Moody’s (or its equivalent under any successor rating category of Moody’s), a rating of BBB- or better by S&P (or its equivalent under any successor rating category of S&P) or an equivalent Investment Grade rating from any replacement Ratings Agency appointed by us.

“Moody’s” means Moody’s Investors Service, Inc. and its successors.

“Ratings Agency” means, with respect to a series of notes, each of Moody’s and S&P; provided, that if either of Moody’s or S&P ceases to rate the notes of such series or fails to make a rating of the notes of such series publicly available for reasons outside of our control, we may appoint a replacement for such Ratings Agency that is a “nationally recognized statistical rating organization” within the meaning of Section 3(a)(62) of the Exchange Act with respect to such series of notes.

“S&P” means S&P Global Ratings and its successors.

“Voting Stock” means Capital Stock of a corporation of the class or classes having general voting power under ordinary circumstances to elect at least a majority of the board of directors, managers or trustees of such corporation (irrespective of whether or not at the time stock of any other class or classes shall have or might have voting power upon the occurrence of any contingency).

We will comply with the applicable requirements of Rule 14e-1 under the Exchange Act and any other securities laws and regulations thereunder to the extent those laws and regulations are applicable in connection with the offer to purchase the notes of a series as a result of a Change of Control Triggering Event. To the extent that the provisions of any securities laws or regulations conflict with the Change of Control Offer provisions of the notes of a series, we will comply with those securities laws and regulations and will not be deemed to have breached our obligations under the Change of Control Offer provisions of any notes by virtue of any such conflict.

Unless we default in the Change of Control Payment with respect to a series of notes, on and after the Change of Control Payment Date for such series of notes, interest will cease to accrue on the notes of such series or portions of the notes of such series tendered for purchase pursuant to the applicable Change of Control Offer.

It is possible that we will not have sufficient funds at the time of any Change of Control Triggering Event to purchase the notes of each series. In addition, it is possible that at the time of any Change of Control Triggering Event, we may be prohibited from purchasing the notes of a series by the terms of our other outstanding indebtedness. In order to obtain sufficient funds to pay the purchase price of the outstanding notes of a series (as well as to refinance any such other indebtedness in order to be able to purchase the notes of a series without violating the terms of such other indebtedness), we may need to refinance the notes of one or more series and such other indebtedness. We cannot assure you that we would be able to refinance the notes of any series and such other indebtedness on reasonable terms, or at all. Our failure to offer to purchase all outstanding notes of any series or to purchase all validly tendered notes of any series would be an event of default with respect to that series under the indenture. Such an event of default may cause the acceleration of our other indebtedness.

The Change of Control Triggering Event provision described above will not afford you protection in the event of certain highly leveraged transactions that may adversely affect you. For example, any leveraged recapitalization, refinancing, restructuring or acquisition initiated by us generally will not constitute a Change of

---

## [Table of Contents](#)

Control that would potentially lead to a Change of Control Triggering Event. As a result, we could enter into any such transaction even though the transaction could increase the total amount of our outstanding indebtedness, adversely affect our capital structure or credit ratings or otherwise adversely affect the holders of the notes. These transactions may not involve a change in voting power or beneficial ownership or result in a downgrade in the ratings of the notes, or cause the notes to cease to be rated Investment Grade, or, even if they do, may not necessarily constitute a Change of Control Triggering Event that affords you the protections described in this prospectus supplement.

The definition of Change of Control includes a phrase relating to the sale, conveyance, transfer or lease of our properties and assets “substantially as an entirety.” Although there is a limited body of case law interpreting phrases similar to “substantially as an entirety” there is no precise established definition of the phrase under applicable law. Accordingly, the ability of a holder of notes to require us to purchase its notes as a result of a sale, conveyance, transfer or lease of less than all of our properties and assets may be uncertain.

### **Sinking Fund**

The notes will not be entitled to any sinking fund.

### **Trustee and Paying Agent**

Wells Fargo Bank, National Association will serve as trustee and initial paying agent for the notes.

## BOOK-ENTRY ISSUANCE

The notes will be represented by one or more global securities that will be deposited with and registered in the name of The Depository Trust Company (“DTC”) or its nominee. Thus, we will not issue certificated securities to you for the notes, except in the limited circumstances described below. Each global security will be issued to DTC, which will keep a computerized record of its participants whose clients have purchased the notes. Each participant will then keep a record of its clients. Unless it is exchanged in whole or in part for a certificated security, a global security may not be transferred. DTC, its nominees and their successors may, however, transfer a global security as a whole to one another, and these transfers are required to be recorded on our records or a register to be maintained by the trustee. The laws of some jurisdictions may require that certain purchasers of securities take physical delivery of such securities in definitive form. Such limits and laws may impair the ability to transfer or pledge beneficial interests in the global securities.

Beneficial interests in a global security will be shown on, and transfers of beneficial interests in the global security will be made only through, records maintained by DTC and its participants. DTC has provided us with the following information: DTC is a limited-purpose trust company organized under the New York Banking Law, a “banking organization” within the meaning of the New York Banking Law, a member of the United States Federal Reserve System, a “clearing corporation” within the meaning of the New York Uniform Commercial Code and a “clearing agency” registered under the provisions of Section 17A of the Exchange Act. DTC holds securities that its direct participants deposit with DTC. DTC also records the settlements among direct participants of securities transactions, such as transfers and pledges, in deposited securities through computerized records for direct participants’ accounts. This eliminates the need to exchange certificated securities. Direct participants include securities brokers and dealers, banks, trust companies, clearing corporations and certain other organizations, some of whom (and/or their representatives) own DTC.

DTC’s book-entry system is also used by other organizations such as securities brokers and dealers, banks and trust companies that work through a direct participant. The rules that apply to DTC and its participants are on file with the SEC.

When you purchase notes through the DTC system, the purchases must be made by or through a direct participant, which will receive credit for the notes on DTC’s records. When you actually purchase the notes, you will become their beneficial owner. Your ownership interest will be recorded only on the direct or indirect participants’ records. DTC will have no knowledge of your individual ownership of the notes. DTC’s records will show only the identity of the direct participant and the amount of the notes held by or through them. You will not receive a written confirmation of your purchase or sale or any periodic account statement directly from DTC. You should instead receive these from your direct or indirect participant. As a result, the direct or indirect participants are responsible for keeping accurate account of the holdings of their customers. The trustee will wire payments on the notes to DTC’s nominee. The trustee and we will treat DTC’s nominee as the owner of each global security for all purposes. Accordingly, the trustee, any paying agent and we will have no direct responsibility or liability to pay amounts due on a global security to you or any other beneficial owners in that global security. Any redemption notices will be sent by us directly to DTC, which will, in turn, inform the direct participants (or the indirect participants), which will then contact you as a beneficial holder.

It is DTC’s current practice, upon receipt of any payment of distributions or liquidation amounts, to proportionately credit direct participants’ accounts on the payment date based on their holdings. In addition, it is DTC’s current practice to pass through any consenting or voting rights to such participants by using an omnibus proxy. Those participants will, in turn, make payments to and solicit votes from you, the ultimate owner of notes, based on their customary practices. Payments to you will be the responsibility of the participants and not of DTC, the trustee or our company.

## [Table of Contents](#)

Notes represented by one or more global securities will be exchangeable for certificated securities with the same terms in authorized denominations only if:

- DTC is unwilling or unable to continue as depository or ceases to be a clearing agency registered under applicable law, and a successor is not appointed by us within 90 days; or
- we decide to discontinue the book-entry system; or
- an event of default has occurred and is continuing with respect to the notes.

If the global security is exchanged for certificated securities, the trustee will keep the registration books for the notes at its corporate trust office and follow customary practices and procedures regarding those certificated securities.

### **Clearstream and Euroclear**

Links have been established among DTC, Euroclear Bank S.A./N.V., as operator of the Euroclear System (“Euroclear”) and Clearstream Banking, société anonyme (“Clearstream”), which are two European book-entry depositories similar to DTC, to facilitate the initial issuance of the notes sold outside of the United States and cross-market transfers of the notes associated with secondary market trading.

Although DTC, Clearstream and Euroclear have agreed to the procedures provided below in order to facilitate transfers, they are under no obligation to perform these procedures, and these procedures may be modified or discontinued at any time.

Clearstream and Euroclear will record the ownership interests of their participants in much the same way as DTC, and DTC will record the total ownership of each of the U.S. agents of Clearstream and Euroclear, as participants in DTC.

When notes are to be transferred from the account of a DTC participant to the account of a Clearstream participant or a Euroclear participant, the purchaser must send instructions to Clearstream or Euroclear through a participant at least one day prior to settlement. Clearstream or Euroclear, as the case may be, will instruct its U.S. agent to receive notes against payment. After settlement, Clearstream or Euroclear will credit its participant’s account. Credit for the notes will appear on the next day (European time).

Because settlement is taking place during New York business hours, DTC participants will be able to employ their usual procedures for sending notes to the relevant U.S. agent acting for the benefit of Clearstream or Euroclear participants. The sale proceeds will be available to the DTC seller on the settlement date. As a result, to the DTC participant, a cross-market transaction will settle no differently than a trade between two DTC participants.

When a Clearstream or Euroclear participant wishes to transfer notes to a DTC participant, the seller will be required to send instructions to Clearstream or Euroclear through a participant at least one business day prior to settlement. In these cases, Clearstream or Euroclear will instruct its U.S. agent to transfer these notes against payment for them. The payment will then be reflected in the account of the Clearstream or Euroclear participant the following day, with the proceeds back-valued to the value date, which would be the preceding day, when settlement occurs in New York. If settlement is not completed on the intended value date, that is, the trade fails, proceeds credited to the Clearstream or Euroclear participant’s account will instead be valued as of the actual settlement date.

## MATERIAL UNITED STATES FEDERAL INCOME TAX CONSIDERATIONS

The following is a discussion of certain U.S. federal income tax considerations of the purchase, ownership and disposition of the notes, but does not purport to be a complete analysis of all potential tax effects. This discussion is based upon the United States Internal Revenue Code of 1986, as amended (the “Code”), Treasury regulations issued thereunder (the “Treasury Regulations”), and judicial and administrative interpretations thereof, each as in effect on the date hereof, and all of which are subject to change, possibly with retroactive effect. No rulings from the U.S. Internal Revenue Service (the “IRS”) have been or are expected to be sought with respect to the matters discussed below. There can be no assurance that the IRS will not take a different position concerning the tax consequences of the purchase, ownership or disposition of the notes or that any such position would not be sustained.

This discussion is for general information purposes only and does not address all of the U.S. federal income tax consequences that may be relevant to a holder in light of such holder’s particular circumstances or to holders subject to special rules, such as financial institutions, U.S. expatriates, insurance companies, dealers in securities or currencies, traders in securities, U.S. Holders (as defined below) whose functional currency is not the U.S. dollar, tax-exempt organizations, regulated investment companies, real estate investment trusts, partnerships or other pass-through entities (or investors in such entities), persons liable for alternative minimum tax and persons holding the notes as part of a “straddle,” “hedge,” “conversion transaction” or other integrated transaction, or persons subject to special tax accounting rules as a result of any item of gross income with respect to the notes being taken into account on an applicable financial statement. This summary does not address the potential application of the 3.8% United States federal income tax on net investment income of certain United States persons. Investors should consult their own advisors regarding the possible application of this tax. In addition, this discussion is limited to persons who purchase the notes for cash at original issuance and at their “issue price” (the first price at which a substantial amount of the notes is sold to the public for money, not including sales to bond houses, brokers or similar persons or organizations acting in the capacity of underwriters, placement agents or wholesalers) and who hold the notes as capital assets within the meaning of Section 1221 of the Code (generally, property held for investment).

If an entity that is classified as a partnership for U.S. federal income tax purposes (including an entity or arrangement treated as a partnership for U.S. federal income tax purposes) holds the notes, the U.S. federal income tax treatment of a partner will generally depend upon the status of the partner and the activities of the partnership. Partnerships holding notes and partners in such partnerships should consult their tax advisors as to the particular U.S. federal income tax consequences to them of holding and disposing of the notes.

***Prospective purchasers of the notes should consult their tax advisors concerning the tax consequences of holding notes in light of their particular circumstances, including the application of the U.S. federal income tax considerations discussed below, as well as the application of U.S. federal estate and gift tax laws, the U.S. federal Medicare tax on net investment income, and state, local, non-U.S. or other tax laws.***

### Tax Considerations for U.S. Holders

As used herein, the term “U.S. Holder” means a beneficial owner of a note that is, for U.S. federal income tax purposes:

- an individual citizen or resident of the United States;
- a corporation, or other entity taxable as a corporation, created or organized in or under the laws of the United States, any state thereof or the District of Columbia;
- an estate the income of which is subject to U.S. federal income taxation regardless of its source; or
- a trust (1) if a court within the United States is able to exercise primary supervision over the administration of the trust and one or more U.S. persons have the authority to control all substantial decisions of the trust, or (2) if a valid election is in place to treat the trust as a U.S. person.

## [Table of Contents](#)

### ***Payments of interest***

Payments of interest on a note generally will be includible in the gross income of a U.S. Holder as ordinary interest income at the time it accrues or is received in accordance with the U.S. Holder's method of accounting for U.S. federal income tax purposes. It is expected, and this discussion assumes, that the notes will be issued without original issue discount for U.S. federal income tax purposes.

### ***Certain additional payments***

We will be required to make payments of additional amounts if we repurchase the notes in connection with a Change of Control Triggering Event described above under "Description of the Notes-Offer to Purchase Upon a Change of Control Triggering Event." We intend to take the position that the possibility of such payments will not result in such notes being treated as contingent payment debt instruments under the applicable Treasury Regulations. Our position is not binding on the IRS. If the IRS takes a position contrary to that described above, a holder of the notes may be required to accrue interest income based upon a "comparable yield" (as defined in the Treasury Regulations) determined at the time of issuance of such notes, with adjustments to such accruals when any contingent payments are made that differ from the payments based on the comparable yield. In addition, income on the sale, exchange, retirement or other taxable disposition of such notes may be treated as ordinary income rather than as capital gain. You should consult your tax adviser regarding the tax consequences if such notes were treated as contingent payment debt instruments. The remainder of this discussion assumes that such notes are not treated as contingent payment debt instruments.

### ***Sale, exchange or other disposition of the notes***

Unless a non-recognition provision applies, upon the sale, exchange, redemption or other disposition of a note, a U.S. Holder will recognize taxable gain or loss equal to the difference between the amount realized on the sale, exchange or other taxable disposition and the U.S. Holder's tax basis in the note. A U.S. Holder's tax basis in a note generally will be its cost for that note. For these purposes, the amount realized does not include any amount attributable to accrued interest. Amounts attributable to accrued interest are treated as interest as described under "Payments of interest" above.

Gain or loss realized on the sale, exchange or other taxable disposition of a note will generally be capital gain or loss and will be long-term capital gain or loss if at the time of the sale, exchange or other taxable disposition the note has been held by the U.S. Holder for more than one year. The deductibility of capital losses is subject to limitations under the Code.

### ***Backup withholding and information reporting***

Information returns will be filed with the IRS in connection with payments on the notes and the proceeds from a sale or other disposition of the notes. A U.S. Holder will be subject to U.S. backup withholding on these payments if the U.S. Holder fails to provide its taxpayer identification number to the paying agent and comply with certain certification procedures or otherwise establish an exemption from backup withholding. Backup withholding is not an additional tax. The amount of any backup withholding from a payment to a U.S. Holder may be credited against the U.S. Holder's U.S. federal income tax liability and may entitle the U.S. Holder to a refund, provided that the required information is timely furnished to the IRS.

### ***Tax Considerations for Non-U.S. Holders***

For purposes of this discussion, the term "Non-U.S. Holder" means a beneficial owner of notes who or that is neither a U.S. Holder nor a partnership (or entity or arrangement treated as a partnership) for U.S. federal income tax purposes. "Non-U.S. Holder" does not include a holder who is an individual present in the United States for 183 days or more in the taxable year of disposition of a note and who is not otherwise a resident of the

United States for U.S. federal income tax purposes. Special rules not discussed below may apply to certain Non-U.S. Holders subject to special tax treatment such as “controlled foreign corporations” or “passive foreign investment companies.”

Non-U.S. Holders should consult their own tax advisors to determine the U.S. federal, state, local and other tax consequences that may be relevant to them in light of their particular circumstances.

### ***Payments of interest***

Subject to the discussions below concerning backup withholding and the Foreign Account Tax Compliance Act, payments of interest on the notes by us or any paying agent to any Non-U.S. Holder will not be subject to U.S. federal income or withholding tax, provided that:

- interest paid on the notes is not effectively connected with the Non-U.S. Holder’s conduct of a trade or business in the United States; and
- the Non-U.S. Holder does not own, actually or constructively, 10% or more of the total combined voting power of all classes of our stock entitled to vote or 10% of the total value of all classes of our stock; and
- the Non-U.S. Holder is not a controlled foreign corporation related, directly or indirectly, to us through stock ownership; and
- the certification requirements described below have been fulfilled with respect to the beneficial owner, as discussed below.

### ***Certification requirements***

Subject to the discussion below concerning income of a Non-U.S. Holder that is effectively connected with the conduct of a trade or business in the United States, interest on a note will not be exempt from United States federal withholding tax at a 30% rate unless the beneficial owner of that note certifies on a properly executed IRS Form W-8BEN (or IRS Form W-8BEN-E, if applicable) to the applicable withholding agent, under penalties of perjury, that it is not a United States person as defined under the Code. Special certification rules apply to notes that are held through foreign intermediaries.

If a Non-U.S. Holder of a note is engaged in a trade or business in the United States, and if interest on the note is effectively connected with the conduct of this trade or business (and, if required by an applicable income tax treaty, is also attributable to a permanent establishment maintained by the Non-U.S. Holder in the United States), the Non-U.S. Holder, although exempt from the withholding tax discussed above, will generally be taxed with respect to such interest on a net income basis at graduated U.S. federal income tax rates in generally the same manner as a U.S. Holder (see “Tax Consequences to U.S. Holders” above), except that the holder will be required to provide to us a properly executed IRS Form W-8ECI in order to claim an exemption from withholding tax. These Non-U.S. Holders should consult their own tax advisors with respect to other U.S. tax consequences of the ownership and disposition of notes, including, in the case of a corporation, the possible imposition of a 30% “branch profits tax.”

### ***Sale, exchange or other disposition of the notes***

Subject to the discussions below concerning backup withholding and FATCA, a Non-U.S. Holder of a note will not be subject to U.S. federal income tax on gain realized on the sale, exchange, retirement or other disposition of such note, unless the gain is effectively connected with the conduct by the Non-U.S. Holder of a trade or business in the United States (and, if required by an applicable income tax treaty, is also attributable to a permanent establishment maintained by the Non-U.S. Holder in the United States), subject to an applicable income tax treaty providing otherwise.

## [Table of Contents](#)

If a Non-U.S. Holder is engaged in a trade or business in the United States and gain realized by the Non-U.S. Holder on a sale, exchange or other disposition of notes is effectively connected with the conduct of such trade or business, the Non-U.S. Holder will generally be taxed with respect to such gain in the same manner as a U.S. Holder (see “Tax Consequences to U.S. Holders” above), subject to an applicable income tax treaty providing otherwise. Non-U.S. Holders whose gain from dispositions of notes may be effectively connected with the conduct of a trade or business in the United States are urged to consult their own tax advisors with respect to the U.S. tax consequences of the ownership and disposition of notes, including, in the case of a corporation, the possible imposition of a 30% “branch profits tax.”

### ***Backup withholding and information reporting***

Information returns will be filed with the IRS in connection with payments on the notes. Unless the Non-U.S. Holder complies with certification procedures to establish that it is not a United States person, information returns may be filed with the IRS in connection with the proceeds from a sale or other disposition of the notes and the Non-U.S. Holder may be subject to U.S. backup withholding on payments on the notes or on the proceeds from a sale or other disposition of the notes. Compliance with the certification procedures required to claim the exemption from withholding tax on interest described above will satisfy the certification requirements necessary to avoid backup withholding as well. Backup withholding is not an additional tax. The amount of any backup withholding from a payment to a Non-U.S. Holder may be credited against the Non-U.S. Holder’s U.S. federal income tax liability (if any) and may entitle the Non-U.S. Holder to a refund, provided that the required information is timely furnished to the IRS.

### **Foreign Account Tax Compliance Act**

Sections 1471 through 1474 of the Code (commonly known as “FATCA”) generally impose a withholding tax of 30% on certain payments to certain non-U.S. entities (including financial intermediaries) with respect to certain financial instruments, unless various U.S. information reporting and due diligence requirements have been satisfied. An intergovernmental agreement between the United States and the non-U.S. entity’s jurisdiction may modify these requirements. Withholding under these rules (if applicable) will apply to payments of interest on the notes. Under proposed Treasury regulations (the preamble to which indicates that taxpayers may rely on the proposed regulations pending the issuance of final regulations), no such withholding tax will apply to payments of gross proceeds from the sale, exchange or retirement of the notes. In many cases, Non-U.S. Holders may be able to indicate their exemption from, or compliance with, FATCA by providing a properly completed IRS Form W8-BEN or IRS Form W8-BEN-E (as applicable) to the withholding agent certifying as to such status under FATCA. In the event any withholding under FATCA is imposed with respect to any payments on the notes, there will be no additional amounts payable to compensate for the withheld amount. Non-U.S. Holders and U.S. Holders holding notes through a non-U.S. intermediary should consult their tax advisors regarding the potential application of FATCA to the notes.

## CERTAIN ERISA CONSIDERATIONS

A fiduciary of a pension, profit-sharing or other employee benefit plan (a “plan”) subject to Title I of the U.S. Employee Retirement Income Security Act of 1974, as amended (“ERISA”), should consider the fiduciary standards of ERISA and the U.S. Department of Labor Regulations issued thereunder (the “DOL Regulations”) in the context of the plan’s particular circumstances before authorizing an investment in the notes. Accordingly, the fiduciary should consider, among other factors, whether the investment would satisfy the prudence and diversification requirements of ERISA and would be consistent with the documents and instruments governing the plan, and whether the investment would involve a prohibited transaction under Section 406 of ERISA or Section 4975 of the Code.

Section 406 of ERISA and Section 4975 of the Code prohibit plans, as well as individual retirement accounts and Keogh plans subject to Section 4975 of the Code (also “plans”), from engaging in certain transactions involving “plan assets” with persons who are “parties in interest” under ERISA or “disqualified persons” under the Code (“parties in interest”) with respect to the plan. A violation of these prohibited transaction rules may result in civil penalties or other liabilities under ERISA and the DOL Regulations, and/or an excise tax under Section 4975 of the Code for those persons, unless exemptive relief is available under an applicable statutory, regulatory or administrative exemption. Certain employee benefit plans and arrangements including those that are governmental plans (as defined in Section 3(32) of ERISA), certain church plans (as defined in Section 3(33) of ERISA) and non-U.S. plans (as described in Section 4(b)(4) of ERISA) (“non-ERISA arrangements”) are not subject to the requirements of Title I of ERISA or Section 4975 of the Code but may be subject to similar provisions under applicable federal, state, local, foreign or other regulations, rules or laws (“similar laws”).

The acquisition of the notes by a plan with respect to which we, the underwriters or certain of our or their affiliates is or becomes a party in interest may constitute or result in a prohibited transaction under ERISA or Section 4975 of the Code, unless those notes are acquired pursuant to and in accordance with an applicable exemption. Section 408(b)(17) of ERISA and Section 4975(d)(20) of the Code provide an exemption for the purchase and sale of securities where neither we nor any of our affiliates have or exercise any discretionary authority or control or render any investment advice with respect to the assets of the plan involved in the transaction and the plan pays no more and receives no less than “adequate consideration” in connection with the transaction (the “service provider exemption”). The U.S. Department of Labor (the “DOL”) has also issued five prohibited transaction class exemptions (“PTCEs”) that may provide exemptive relief if required for direct or indirect prohibited transactions that may arise from the purchase or holding of the notes. These exemptions are:

- PTCE 84-14, an exemption for certain transactions determined or effected by qualified professional asset managers;
- PTCE 90-1, an exemption for certain transactions involving insurance company pooled separate accounts;
- PTCE 91-38, an exemption for certain transactions involving bank collective investment funds;
- PTCE 95-60, an exemption for transactions involving certain insurance company general accounts; and
- PTCE 96-23, an exemption for certain transactions managed by in-house asset managers.

There can be no assurance that any of these administrative class or statutory exemptions will be available with respect to transactions involving the notes.

Any purchaser or holder of notes or any interest therein will be deemed to have represented by its purchase and holding of the notes that either (1) it is not a plan subject to Title I of ERISA or Section 4975 of the Code, and is not purchasing or holding the notes on behalf of or with “plan assets” of any such plan or (2) its purchase and holding of the notes will not constitute or result in any non-exempt prohibited transaction under Section 406 of ERISA or Section 4975 of the Code. In addition, any purchaser or holder of notes or any interest therein which is a non-ERISA arrangement will be deemed to have represented by its purchase or holding of the notes that its purchase and holding will not constitute or result in a violation of the provisions of any similar laws.

## [Table of Contents](#)

Neither we, nor any underwriter, nor any of our or its respective affiliates (the “Transaction Parties”) is undertaking to provide impartial investment advice, or to give advice in a fiduciary capacity, in connection with the acquisition of notes by a plan. In addition, the person making the decision to acquire notes on behalf of a plan, subject to ERISA or Section 4975 of the Code or an entity holding “plan assets” of such a plan (the “Plan Fiduciary”), will be deemed to have represented and warranted that that (i) none of the Transaction Parties or any of their affiliates, has provided any investment advice within the meaning of Section 3(21) of ERISA to the plan, entity or Plan Fiduciary, in connection with its acquisition of notes, and (ii) the Plan Fiduciary is exercising its own independent judgment in evaluating the investment in the notes.

Due to the complexity of these rules and the penalties that may be imposed upon persons involved in non-exempt prohibited transactions, it is important that fiduciaries or other persons considering purchasing notes on behalf of or with “plan assets” of any plan or non-ERISA arrangement consult with their counsel regarding the availability of exemptive relief under any of the PTCEs listed above, the service provider exemption or any other applicable exemption, or the potential consequences of any purchase or holding of notes under similar laws, as applicable.

Nothing in this prospectus supplement shall be construed as a representation or advice as to whether an investment in the notes would meet any or all of the relevant legal requirements with respect to investments by, or is appropriate for, plans or non-ERISA arrangements generally or any particular plan or non-ERISA arrangement.

The underwriting agreement provides that the underwriters are obligated, severally and not jointly, to purchase all of the notes if any are purchased. The underwriters will sell the notes to the public when and if the underwriters buy the notes from us.

Each series of notes is a new issue of securities with no established trading market and will not be listed on any national securities exchange. The underwriters have advised us that they intend to make a market for the notes, but they have no obligation to do so and may discontinue market making at any time without providing any notice. No assurance can be given as to the liquidity of any trading market for the notes.

The underwriters have advised us that they propose to initially offer the notes to the public for cash at the public offering prices set forth on the cover of this prospectus supplement, and that they may offer the notes to certain dealers at such price less concessions not in excess of (i) 0.400% of the principal amount of the 2030 notes and (ii) 0.500% of the principal amount of the 2050 notes. Any underwriter may allow, and any such dealer may reallow, to certain other dealers, a concession not in excess of (i) 0.250% of the principal amount of the 2030 notes and (ii) 0.350% of the principal amount of the 2050 notes. After the public offering of the notes, the public offering prices and other selling terms may be changed. The offering of the notes by the underwriters is subject to receipt and acceptance and subject to the underwriters' right to reject any order in whole or in part.

We have also agreed to indemnify the underwriters against certain liabilities, including liabilities under the Securities Act of 1933, as amended, or to contribute to payments which the underwriters may be required to make in respect of any such liabilities.

The underwriters may engage in over-allotment, stabilizing transactions, covering transactions and penalty bids in accordance with Regulation M under the Exchange Act, as follows:

- Over-allotment involves sales in excess of the offering size, which creates a short position for the underwriters.
- Stabilizing transactions permit bids to purchase the underlying security so long as the stabilizing bids do not exceed a specified maximum.
- Covering transactions involve purchases of the notes in the open market after the distribution has been completed in order to cover short positions.

## [Table of Contents](#)

- Penalty bids permit the underwriters to reclaim a selling concession from a broker/dealer when the notes originally sold by such broker/dealer are purchased in a stabilizing or covering transaction to cover short positions.

These stabilizing transactions, covering transactions and penalty bids may cause the price of the notes to be higher than it would otherwise be in the absence of these transactions. The underwriters will not be required to engage in these activities, and may engage in these activities, and may end any of these activities, at any time without notice.

Expenses associated with this offering, to be paid by us, are estimated to be \$3.0 million.

Certain of the underwriters and their affiliates have engaged, and may in the future engage, in banking, financial advisory and other commercial dealings with us and our affiliates, for which they have earned and may earn customary fees and commissions. Certain of the underwriters and their affiliates act as lenders and agents under our U.S. committed revolving credit facility and receive fees in connection with such roles. In addition, certain of the underwriters and their affiliates will receive a portion of the net proceeds of this offering that are used to fund the repayment of the U.S. committed revolving credit facility as described under “—Use of Proceeds.” In addition, Wells Fargo Securities, LLC, an affiliate of the trustee, is acting as an underwriter in this offering.

In addition, in the ordinary course of their business activities, the underwriters and their affiliates may make or hold a broad array of investments and actively trade debt and equity securities (or related derivative securities) and financial instruments (including bank loans) for their own account and for the accounts of their customers. Such investments and securities activities may involve securities and/or instruments of ours or our affiliates. If any of the underwriters or their affiliates have a lending relationship with us, certain of those underwriters or their affiliates routinely hedge, and certain other of those underwriters or their affiliates may hedge, their credit exposure to us consistent with their customary risk management policies. Typically, these underwriters and their affiliates would hedge such exposure by entering into transactions which consist of either the purchase of credit default swaps or the creation of short positions in our securities, including potentially the notes offered hereby. Any such credit default swaps or short positions could adversely affect future trading prices of the notes offered hereby. The underwriters and their affiliates may also make investment recommendations and/or publish or express independent research views in respect of such securities or financial instruments and may hold, or recommend to clients that they acquire, long and/ or short positions in such securities and instruments.

### **Settlement Cycle**

It is expected that delivery of the notes will be made against payment thereof on or about the date specified in the last paragraph of the cover page of this prospectus supplement, which will be the fourth business day following the date of the pricing of the notes (such settlement being referred to as “T+4”). Under Rule 15c6-1 of the Exchange Act, trades in the secondary market are generally required to settle in two business days, unless the parties to any such trade expressly agree otherwise. Accordingly, purchasers who wish to trade notes on the date of pricing or on the next succeeding business day will be required, by virtue of the fact that the notes will initially settle in T+4, to specify an alternate settlement arrangement at the time of any such trade to prevent a failed settlement.

### **Selling Restrictions**

#### ***European Economic Area and the United Kingdom***

This prospectus is part of a registration statement that we filed with the Securities and Exchange Commission (the “SEC”) utilizing a “shelf” registration process. Under this shelf registration process, we may, from time to time, sell the securities described in this prospectus in one or more offerings.

This prospectus provides you with a general description of the securities we may offer. Each time we sell securities, we will provide a prospectus supplement or a free writing prospectus that will contain specific information about the terms of that offering. The prospectus supplement or free writing prospectus may also add, update or change information contained in this prospectus. You should read both this prospectus, any prospectus supplement and any free writing prospectus together with the additional information described under the heading “Where You Can Find More Information About Us.”

**We have not authorized anyone to provide any information other than that contained or incorporated by reference in this prospectus or in any related prospectus supplement or free writing prospectus prepared by us or on our behalf or to which we have referred you. We take no responsibility for, and can provide no assurance as to the reliability of, any other information that others may give you. We are offering to sell debt securities only in jurisdictions where offers and sales are permitted. The information contained in or incorporated by reference in this prospectus or any prospectus supplement or in any such free writing prospectus is accurate only as of its respective date, regardless of the time of delivery of this prospectus, any prospectus supplement or any such free writing prospectus or any sale of debt securities. Our business, financial condition, results of operations and prospects may have changed since that date.**

In this prospectus, unless otherwise stated, the terms “we,” “us” and “our” refer to Campbell Soup Company and our consolidated subsidiaries.

## DISCLOSURE REGARDING FORWARD-LOOKING STATEMENTS

This prospectus, including the documents incorporated by reference herein, contains “forward-looking” statements within the meaning of the Private Securities Litigation Reform Act of 1995. These forward-looking statements reflect our current expectations regarding our future results of operations, economic performance, financial condition and achievements. We try, wherever possible, to identify these forward-looking statements by using words such as “anticipate,” “believe,” “estimate,” “expect,” “will” and similar expressions. One can also identify them by the fact that they do not relate strictly to historical or current facts. These statements reflect our current plans and expectations and are based on information currently available to us. They rely on a number of assumptions regarding future events and estimates which could be inaccurate and which are inherently subject to risks and uncertainties.

We wish to caution the reader that the following important factors and those important factors described in Item 1A of our most recent Annual Report on Form 10-K filed with the SEC (as updated from time-to-time by our Quarterly Reports on Form 10-Q filed with the SEC) could affect our actual results and could cause such results to vary materially from those expressed in any forward-looking statements made by us or on our behalf:

- our ability to successfully manage changes to our organizational structure and/or business processes, including our selling, distribution, manufacturing and information management systems or processes;
- our ability to realize projected cost savings and benefits from our efficiency and/or restructuring initiatives;
- the impact of strong competitive response to our efforts to leverage our brand power with product innovation, promotional programs and new advertising;
- changes in consumer demand for our products and favorable perception of our brands;
- product quality and safety issues, including recalls and product liabilities;
- the risks associated with trade and consumer acceptance of product improvements, shelving initiatives, new products and pricing and promotional strategies;
- a changing customer landscape, with value and e-commerce retailers expanding their market presence, while certain of our key customers continue to increase their significance to our business;
- changing inventory management practices by certain of our key customers;
- disruptions to our supply chain, including fluctuations in the supply of and inflation in energy and raw and packaging materials cost;
- the impact of non-U.S. operations, including export and import restrictions, public corruption and compliance with foreign laws and regulations;
- the ability to complete and to realize the projected benefits of acquisitions, divestitures and other business portfolio changes;
- the uncertainties of litigation and regulatory actions against us;
- the possible disruption to the independent contractor distribution models used by certain of our businesses, including as a result of litigation or regulatory actions affecting their independent contractor classification;
- our ability to protect our intellectual property rights;
- impairment to goodwill or other intangible assets;
- increased liabilities and costs related to our defined benefit pension plans;
- a material failure in or breach of our information technology systems;
- our ability to attract and retain key personnel;

## [Table of Contents](#)

- changes in currency exchange rates, tax rates, interest rates, debt and equity markets, inflation rates, economic conditions, law, regulation and other external factors; and
- unforeseen business disruptions in one or more of our markets due to political instability, civil disobedience, terrorism, armed hostilities, extreme weather conditions, natural disasters or other calamities.

This discussion of uncertainties is by no means exhaustive but is designed to highlight important factors that may impact our outlook. We disclaim any obligation or intent to update forward-looking statements made by us in order to reflect new information, events or circumstances after the date they are made.

### **CAMPBELL SOUP COMPANY**

We are a manufacturer and marketer of high-quality, branded food and beverage products. We manage our businesses in three divisions focused mainly on product categories. The divisions, which represent our operating and reportable segments, are as follows: Americas Simple Meals and Beverages; Global Biscuits and Snacks; and Campbell Fresh. We organized as a business corporation under the laws of New Jersey on November 23, 1922; however, through predecessor organizations, we trace our heritage in the food business back to 1869. Our principal executive offices are in Camden, New Jersey 08103-1799. We maintain a website at [www.campbellsoupcompany.com](http://www.campbellsoupcompany.com) where general information about us is available. We are not incorporating the contents of the website into this prospectus.

### **RISK FACTORS**

Investing in the debt securities involves risks. Before making a decision to invest in the debt securities, in addition to the other information contained in this prospectus and any prospectus supplement, you should carefully consider the risks described under “Risk Factors” in Part I, Item 1A of our Annual Report on Form 10-K for the fiscal year ended July 31, 2016 and in other documents that we include or incorporate by reference in this prospectus. See “Where You Can Find More Information About Us.”

### **USE OF PROCEEDS**

Unless we describe a different use of proceeds from an offering in the related prospectus supplement, we intend to use the net proceeds from the sales of the debt securities offered by this prospectus for general corporate purposes, which may include, but are not limited to, funding for working capital, payment of dividends, capital expenditures, repurchases of our common stock, repayment of debt, and acquisitions. We may temporarily invest funds that are not immediately needed for these purposes in short-term investments, including, but not limited to, marketable securities.

### **RATIO OF EARNINGS TO FIXED CHARGES**

The following table sets forth our consolidated ratio of earnings to fixed charges for the periods shown:

<b>Nine Months Ended</b>	<b>Fiscal Year Ended</b>				
	<b>7/31/16</b>	<b>8/02/15</b>	<b>8/03/14</b>	<b>7/28/13</b>	<b>7/29/12</b>
<b>4/30/17</b>	7.4	8.4	9.0	9.5	6.4

The ratios of earnings to fixed charges were computed by dividing our earnings by fixed charges. For this purpose, earnings include the sum of earnings from continuing operations before taxes, amortization of capitalized interest, and fixed charges, less capitalized interest. Fixed charges include interest expense, capitalized interest, amortization of debt expenses and one-third of rent expense, which represents a reasonable approximation of the interest factor. In the nine-month period ended April 30, 2017, and fiscal years 2016, 2015, 2014, 2013 and 2012, we incurred pre-tax losses/(gains) of \$20 million, \$313 million, \$138 million, \$31 million, (\$285) million, and (\$395) million, respectively, associated with mark-to-market adjustments for defined benefit pension and postretirement plans. In the nine-month period ended April 30, 2017, and fiscal years 2016, 2015, 2014, 2013 and 2012, we recorded pre-tax restructuring charges, administrative expenses and related costs of \$18 million, \$78 million, \$124 million, \$58 million, \$138 million, and \$7 million, respectively. In fiscal year 2017, we recorded a non-cash impairment charge of \$212 million related to the intangible assets of the Bolthouse Farms carrot and carrot ingredients reporting unit and the Garden Fresh Gourmet reporting unit. In fiscal year 2016, we recorded a non-cash impairment charge of \$141 million related to the intangible assets of the Bolthouse Farms carrot and carrot ingredients reporting unit and a pre-tax gain of \$25 million from a settlement of a claim related to the Kelsen acquisition. In fiscal year 2014, we recorded a pre-tax loss of \$9 million on foreign exchange forward contracts used to hedge the proceeds from the sale of the European simple meals business. In fiscal years 2013 and 2012, we recorded pre-tax transaction costs of \$10 million and \$5 million, respectively, associated with the acquisition of Bolthouse Farms.

## DESCRIPTION OF DEBT SECURITIES

We may issue senior debt securities in one or more series under the indenture, dated as of March 19, 2015, between us and Wells Fargo Bank, National Association, as trustee, which we refer to as the “senior indenture.” We may also issue subordinated debt securities in one or more series under the indenture to be entered into between us and Wells Fargo Bank, National Association, as trustee, which we refer to as the “subordinated indenture” and together with the senior indenture as the “indentures” or each of the senior indenture and the subordinated indenture individually, as the “applicable indenture.” For purposes of this section, we refer to: (i) the senior debt securities together with the subordinated debt securities as the “debt securities;” and (ii) Wells Fargo, National Association, or any successor or additional trustee, in its respective capacity as trustee under the applicable indenture, as the “trustee.” The indentures are filed as exhibits to the registration statement that includes this prospectus. See “Where You Can Find More Information About Us” for information on how to obtain copies of the indentures. The indentures have been qualified under the Trust Indenture Act of 1939, as amended, which we refer to as the “Trust Indenture Act.”

This summary of the indentures and the debt securities relates to terms and conditions applicable to the debt securities generally. We will summarize the particular terms of any series of debt securities in the applicable prospectus supplement. If indicated in the prospectus supplement, the terms of any series may differ from the terms summarized below. Because the summary of the material provisions of the indentures and the debt securities set forth below and the summary of the material terms of a particular series of debt securities set forth in the applicable prospectus supplement are not complete, you should refer to the indentures and the debt securities for complete information regarding the terms and provisions of the indentures (including defined terms) and the debt securities. Wherever we refer to particular articles, sections or defined terms of the indentures in this prospectus or in a prospectus supplement, those articles, sections or defined terms are incorporated in this prospectus and the prospectus supplement by reference, and the statement with respect to which such reference is made is qualified in its entirety by such reference. In addition, unless specified otherwise, references to such particular articles, sections or defined terms are applicable to both the senior indenture and the subordinated indenture. Capitalized terms used and not otherwise defined in this section shall have the meanings assigned to them in the indenture. In this “Description of Debt Securities,” the terms the “Company,” “we,” “us” and “our” refer to Campbell Soup Company only, and do not include our consolidated subsidiaries.

## [Table of Contents](#)

See “—Subordination Under Subordinated Indenture.”

The prospectus supplement will specify whether the offered debt securities will be registered, bearer, global or book-entry form.

So long as the depository for a global security or its nominee is the registered owner of such global security, such depository or such nominee, as the case may be, will be considered the sole owner or holder of the debt securities represented by such global security for all purposes. Except in certain circumstances, owners of beneficial interests in a global security will not be entitled to have any of the individual debt securities represented by such global security registered in their names, will not receive or be entitled to receive physical delivery of any such debt securities in definitive form and will not be considered the owners or holders thereof.

Unless the prospectus supplement relating thereto specifies otherwise, debt securities denominated in U.S. dollars will be issued only in denominations of \$1,000 or any integral multiple thereof, and bearer securities denominated in U.S. dollars will be issued only in denominations of \$5,000. The prospectus supplement relating to a series of debt securities denominated in a foreign or composite currency will specify the denomination thereof.

At the option of the holder and subject to the terms of the applicable indenture, bearer securities (with all unmatured coupons, except as provided below, and all matured coupons in default) of any series will be exchangeable into an equal aggregate principal amount of registered securities or, in the case of global bearer securities, registered securities or bearer securities of the same series (with the same interest rate and maturity

## Table of Contents

date). Bearer securities surrendered in exchange for registered securities between the record date and the relevant date for payment of interest will be surrendered without the coupon relating to such date for payment of interest and interest accrued as of such date will not be payable in respect of the registered security issued in exchange for such bearer security, but will be payable only to the holder of such coupon when due in accordance with the terms of the applicable indenture. Registered securities of any series will be exchangeable into an equal aggregate principal amount of registered securities of the same series (with the same interest rate and maturity date) of different authorized denominations. Registered securities may not be exchanged for bearer securities.

A book-entry security may not be registered for transfer or exchange (other than as a whole by the depository to a nominee or by such nominee to such depository) unless:

- (a) the depository or such nominee notifies us that it is unwilling or unable to continue as depository,
- (b) the depository ceases to be qualified as required by the applicable indenture,
- (c) we instruct the trustee in accordance with the applicable indenture that such book-entry securities shall be so registrable and exchangeable,
- (d) there shall have occurred and be continuing an event of default or an event which after notice or lapse of time would be an event of default with respect to the debt securities evidenced by such book-entry securities or
- (e) there shall exist such other circumstances, if any, as may be specified in the applicable prospectus supplement.

Each holder agrees to indemnify the Company and the trustee against any liability that may result from the holder's transfer, exchange or assignment of a security in violation of any provision of the applicable indenture and/or applicable United States Federal or state securities law. The trustee shall have no obligation or duty to monitor, determine or inquire as to compliance with any restrictions on transfer imposed under the applicable indenture or under applicable law with respect to any transfer of a security (including any transfers between or among depository participants or beneficial owners of interests in any global security) other than to require delivery of such certificates and other documentation or evidence as the applicable indenture expressly requires.

No service charge will be made for any transfer or exchange of the debt securities, but the Company may require payment of a sum sufficient to cover any tax or other governmental charge payable in connection therewith.

Unless we indicate otherwise in the prospectus supplement, principal (and premium, if any) will be payable and registered securities will be transferable at the corporate trust office of the trustee or such other paying agent as we may appoint from time to time, as specified in the applicable prospectus supplement. Unless other arrangements are made, we will pay interest, if any, by checks mailed to the holders of registered securities at their registered addresses. We will make payment with respect to debt securities represented by a global security registered in the name of a depository or its nominee to the depository or its nominee, as the case may be, as the registered owner of the global security. To the extent set forth in the prospectus supplement relating thereto, any bearer securities and the coupons appertaining thereto will be payable against surrender thereof, subject to any applicable laws and regulations, at the offices of such paying agencies outside the United States as we may appoint from time to time.

One or more series of the debt securities may be issued as discounted debt securities (bearing no interest or interest at a rate which at the time of issuance is below market rates) to be sold at a substantial discount below their stated principal amount. U.S. Federal income tax consequences and other special considerations applicable to any such discounted debt securities will be described in the prospectus supplement relating thereto.

Under the indentures, we will have the ability to issue debt securities with terms different from those of debt securities previously issued.

## **Certain Covenants**

### ***Restrictions on Secured Debt***

If the Company or any Restricted Subsidiary shall incur or guarantee any evidence of indebtedness for money borrowed (“Debt”) secured by a mortgage, pledge or lien (“Mortgage”) on any Principal Property of the Company or any Restricted Subsidiary, or on any share of stock or Debt of any Restricted Subsidiary, the Company will secure or cause such Restricted Subsidiary to secure all series of debt securities equally and ratably with (or, at the Company’s option, prior to) such secured Debt, unless the aggregate amount of all such secured Debt, together with all Attributable Debt with respect to sale and leaseback transactions involving Principal Properties (with the exception of such transactions which are excluded as described in “Restrictions on Sales and Leasebacks” below), would not exceed 10% of Consolidated Net Assets.

The above restriction will not apply to, and there will be excluded from secured Debt in any computation under such restrictions, Debt secured by:

- (a) Mortgages on property of, or on any shares of stock or Debt of, any corporation existing at the time such corporation becomes a Restricted Subsidiary,
- (b) Mortgages in favor of the Company or a Restricted Subsidiary,
- (c) Mortgages in favor of governmental bodies to secure progress, advance or other payments,
- (d) Mortgages on property, shares of stock or Debt existing at the time of acquisition thereof, including acquisition through merger or consolidation, and purchase money and construction Mortgages which are entered into within specified time limits,
- (e) Mortgages securing certain federal tax-exempt obligations issued by a state or local government entity to finance the acquisition or construction of property,
- (f) mechanics and similar liens arising in the ordinary course of business in respect of obligations not due or being contested in good faith,
- (g) Mortgages arising from deposits with or the giving of any form of security to any governmental authority required as a condition in the transaction of business or exercise of any privilege, franchise or license,
- (h) Mortgages for taxes, assessments or governmental charges or levies which are not then due or, if delinquent, are being contested in good faith,
- (i) Mortgages, including judgment liens, arising from legal proceedings being contested in good faith, and
- (j) any extension, renewal or refunding of any Mortgage referred to in the foregoing clauses (a) through (i) inclusive.

### ***Restrictions on Sales and Leasebacks***

Neither the Company nor any Restricted Subsidiary may enter into any sale and leaseback transaction involving any Principal Property, unless the aggregate amount of all Attributable Debt with respect to such transactions plus all Debt secured by Mortgages on Principal Properties (with the exception of secured Debt which is excluded as described in “Restrictions on Secured Debt” above) would not exceed 10% of Consolidated Net Assets.

This restriction will not apply to, and there shall be excluded from Attributable Debt in any computation under such restriction, any sale and leaseback transaction if:

- (a) the lease is for a period, including renewal rights, of not in excess of five years,
- (b) the sale and leaseback of the Principal Property is entered into prior to, at the time of, or within 180 days after the later of its acquisition or completion of its construction,

## Table of Contents

- (c) the lease secures or relates to certain federal tax-exempt obligations issued by a state or local government entity to finance the acquisition or construction of property,
- (d) the transaction is between the Company and a Restricted Subsidiary or between Restricted Subsidiaries or
- (e) the Company or such Restricted Subsidiary, within 180 days after the sale is completed, applies to the retirement of debt securities or Funded Debt of the Company or a Restricted Subsidiary ranking on parity with or senior to the debt securities, or to the purchase of other property which will constitute Principal Property of a value at least equal to the value of the Principal Property leased, an amount not less than the greater of:
  - (1) the net proceeds of the sale of the Principal Property leased or
  - (2) the fair market value of the Principal Property leased.

In lieu of applying proceeds to the retirement of Funded Debt, debentures or notes (including the debt securities) of the Company or a Restricted Subsidiary may be surrendered to the applicable trustee for cancellation at a value equal to the principal amount thereof or the Company or a Restricted Subsidiary may credit the principal amount of Funded Debt voluntarily retired within 180 days after such sale.

Unless otherwise indicated in a prospectus supplement, the covenants contained in the indentures and the debt securities would not necessarily afford holders of the debt securities protection in the event of a highly leveraged or other transaction involving the Company that may adversely affect holders of debt securities.

### ***Certain Definitions***

“Attributable Debt” means, as to any particular lease under which any Person is at the time liable and at any date as of which the amount thereof is to be determined, the total net amount of rent required to be paid by such Person under such lease during the remaining primary term thereof, discounted from the respective due dates thereof to such date at the actual percentage rate inherent in such arrangements as determined in good faith by the Company. The net amount of rent required to be paid under any such lease for any such period shall be the aggregate amount of the amount payable by the lessee with respect to such period after excluding amounts required to be paid on account of maintenance and repairs, insurance, taxes, assessments, water rates and similar charges. In the case of any lease which is terminable by the lessee upon the payment of a penalty, such net amount shall also include the amount of such penalty, but no rent shall be considered as required to be paid under such lease subsequent to the first date upon which it may be terminated.

“Consolidated Net Assets” means total assets after deducting therefrom all current liabilities as set forth on the most recent balance sheet of the Company and its consolidated subsidiaries and computed in accordance with generally accepted accounting principles.

“Funded Debt” means (a) all indebtedness for money borrowed having a maturity of more than 12 months from the date as of which the determination is made or having a maturity of 12 months or less but by its terms being renewable or extendable beyond 12 months from such date at the option of the borrower and (b) rental obligations payable more than 12 months from such date under leases which are capitalized in accordance with generally accepted accounting principles (such rental obligations to be included as Funded Debt at the amount so capitalized).

“Person” means any individual, corporation, partnership, joint venture, association, joint-stock company, trust, unincorporated organization or government or any agency or political subdivision thereof.

“Principal Property” means any manufacturing or processing plant or warehouse owned at the date hereof or hereafter acquired by the Company or any Restricted Subsidiary of the Company which is located within the

United States of America and the gross book value (including related land and improvements thereon and all machinery and equipment included therein without deduction of any depreciation reserves) of which on the date as of which the determination is being made exceeds 2% of Consolidated Net Assets other than (a) any property which in the opinion of the board of directors is not of material importance to the total business conducted by the Company as an entirety or (b) any portion of a particular property which is similarly found not to be of material importance to the use or operation of such property.

“Restricted Subsidiary” means a subsidiary of the Company (a) substantially all the property of which is located, or substantially all the business of which is carried on, within the United States of America and (b) which owns a Principal Property, but does not include a subsidiary of the Company engaged primarily in the development and sale or financing of real property.

### **Merger and Consolidation**

The Company will not merge or sell, convey, transfer or lease all or substantially all of its assets unless the successor Person is the Company or another Person that assumes the Company’s obligations on the debt securities and under the indentures and, after giving effect to such transaction, the Company or the successor Person would not be in default under the indentures.

### **Events of Default**

The indentures define “events of default” with respect to the debt securities of any series as being one of the following events:

- (a) default in the payment of any installment of interest on that series for 30 days after becoming due;
- (b) default in the payment of principal (or premium, if any) on that series when due;
- (c) default in the deposit of any sinking fund payment when due;
- (d) default in the performance of any other covenant with respect to the debt securities of that series or in the indenture (other than a covenant included in the indenture solely for the benefit of any series of debt securities other than that series) continued for 90 days after notice;
- (e) certain events of bankruptcy, insolvency or reorganization; and
- (f) any other event of default provided with respect to debt securities of that series.

The indentures contain no events of default or other provisions which specifically afford holders of the debt securities protection in the event of a highly leveraged transaction.

If an event of default shall occur and be continuing with respect to the debt securities of any series, either the trustee or the holders of at least 25% in principal amount of the debt securities of that series then outstanding may declare the principal (or such portion thereof as may be specified in the prospectus supplement relating to such series) of the debt securities of such series and the accrued interest thereon, if any, to be due and payable. Each indenture provides that the trustee shall, within 90 days after the occurrence of a default known to a responsible officer of the trustee, give the holders of debt securities notice of all uncured defaults known to it (the term “default” to mean the events specified above without grace periods); provided that, except in the case of default in the payment of principal of or interest on any debt security, the trustee shall be protected in withholding such notice if it in good faith determines the withholding of such notice is in the interest of the holders of debt securities. At any time after such declaration of acceleration has been made, but before a judgment or decree for payment of the money due has been obtained by the trustee, the holders of a majority in principal amount of the debt securities of that series then outstanding, by written notice to the Company and the trustee, may, in certain circumstances, rescind and annul such declaration.

## Table of Contents

With respect to each indenture, the Company will furnish to the trustee annually a statement by certain officers of the Company to the effect that to the best of their knowledge the Company is not in default in the fulfillment of any of its obligations under the indenture or, if there has been a default in the fulfillment of any such obligation, specifying each such default. In addition, so long as any of the debt securities are outstanding, the Company shall, within five business days of the chief financial officer, the treasurer or the controller of the Company obtaining actual knowledge of a default or event of default with respect to the debt securities, deliver to the trustee an Officers' Certificate specifying such default or event of default.

The holders of a majority in principal amount of the outstanding debt securities of any series will have the right, subject to certain limitations, to direct the time, method and place of conducting any proceeding for any remedy available to the trustee or exercising any trust or power conferred on the trustee with respect to the debt securities of such series, and to waive certain defaults with respect thereto. Each indenture will provide that in case an event of default shall occur and be continuing, the trustee shall exercise such of its rights and powers under such indenture, and use the same degree of care and skill in its exercise, as a prudent man would exercise or use under the circumstances in the conduct of his own affairs. Subject to such provisions, the trustee will be under no obligation to exercise any of its rights or powers under such indenture at the request of any of the holders of debt securities unless they first shall have offered to the trustee security or indemnity against the costs, expenses and liabilities which might be incurred by it in compliance with such request.

### **Modification of the Indenture and Waiver**

Each indenture provides that the Company and the trustee may enter into supplemental indentures with respect to such indenture without the consent of the holders of the debt securities governed by such indenture to:

- (a) evidence the assumption by a successor corporation of the obligations of the Company,
- (b) add covenants for the protection of the holders of debt securities,
- (c) add any additional events of default,
- (d) change or eliminate any provision of the applicable indenture, provided such change or elimination shall become effective only when there is no debt security of any series outstanding prior to the supplemental indenture with benefits from such provision,
- (e) cure any ambiguity, to correct or supplement any provision in the applicable indenture which may be defective or inconsistent with any other provision in the applicable indenture; or to make any other provisions with respect to matters or questions arising under the applicable indenture, provided that such action does not adversely affect the interests of the holders in any material respect,
- (f) establish the form or terms of debt securities of any series,
- (g) conform the text of the applicable indenture or any debt security issued thereunder to any provision in this "Description of Debt Securities" or in the corresponding section of any prospectus supplement to the extent such provision in this "Description of Debt Securities" or in the corresponding section of any prospectus supplement was intended to be a verbatim recitation of a provision in the applicable indenture or such security, as set forth in an Officers' Certificate,
- (h) secure the debt securities and related coupons, if any, and
- (i) evidence the acceptance of appointment by a successor trustee.

With respect to each indenture, with certain exceptions, the indenture may be modified or amended with the consent of the holders of not less than a majority in principal amount of the outstanding debt securities of each series governed by such indenture that is affected by the modification; provided, however, that no such modification or amendment may be made, without the consent of the holder of each debt security affected, which would, among other things,

## Table of Contents

- (a) reduce the principal amount of or the interest on any debt security, change the stated maturity of the principal of, or any installment of interest on, any debt security or the other terms of payment thereof,
- (b) reduce the above-stated percentage of debt securities, the consent of the holders of which is required to modify or amend the indenture, or the percentage of debt securities of any series, the consent of the holders of which is required to waive certain past defaults,
- (c) change any obligation of the Company to maintain an office or agency in the places and for the purposes specified in Section 10.02 of the indenture,
- (d) modify any of the provisions referred to in clauses (a), (b) and (c) above or clauses (a) and (b) below, except to increase the percentages referred to below or to provide that certain other provisions of the indenture cannot be modified or waived without the consent of the holder of each outstanding debt security affected thereby, or
- (e) in case of the subordinated indenture, modify the provisions with respect to the subordination of outstanding subordinated debt securities in a manner materially adverse to the holders of outstanding subordinated debt securities of a series without the consent of 75% in aggregate principal amount of such securities.

With respect to each indenture, the holders of at least a majority in principal amount of the debt securities of each series outstanding may, on behalf of the holders of all the debt securities of that series, waive, insofar as that series is concerned, (a) compliance by the Company with certain restrictive provisions of the indenture and (b) any past default under the indenture, except a default (1) in the payment of principal of (and premium, if any) or any interest on any debt security of such series and (2) in respect of a covenant, or provision of the indenture which cannot be modified or amended without the consent of the holder of each debt security of such series outstanding affected; provided that in the case of the subordinated indenture, the waiver of provisions with respect to the subordination of the outstanding subordinated debt securities in a manner materially adverse to the holders of outstanding subordinated debt securities of a series requires the consent of the holders of at least 75% in aggregate principal amount of such series.

### **Defeasance and Discharge**

Each indenture provides that with respect to such indenture the Company may specify that, with respect to the debt securities of a certain series, it will be discharged from any and all obligations in respect of such debt securities (except for certain obligations to register the transfer or exchange of debt securities, to replace stolen, lost or mutilated debt securities, to maintain paying agencies and hold monies for payment in trust and, if so specified with respect to the debt securities of a certain series, to pay the principal of (and premium, if any) and interest, if any, on such specified debt securities) upon the deposit with the trustee, in trust, of money and/or U.S. government obligations which through the payment of interest and principal thereof in accordance with their terms will provide money in an amount sufficient to pay any installment of principal (and premium, if any) and interest, if any, on and any mandatory sinking fund payments in respect of such debt securities on the stated maturity of such payments in accordance with the terms of the indenture and such debt securities. If so specified with respect to the debt securities of a series, such a trust may only be established if establishment of the trust would not cause the debt securities of any such series listed on any nationally recognized securities exchange to be de-listed as a result thereof. Also, if so specified with respect to a series of debt securities, such establishment of such a trust may be conditioned on the delivery by the Company to the trustee of an opinion of counsel (who may be counsel to the Company) to the effect that, based upon applicable U.S. Federal income tax law or a ruling published by the United States Internal Revenue Service, such a defeasance and discharge will not be deemed, or result in, a taxable event with respect to holders of such debt securities. The designation of such provisions, U.S. Federal income tax consequences and other considerations applicable thereto will be described in the prospectus supplement relating thereto.

## **Subordination Under Subordinated Indenture**

In the subordinated indenture, we have agreed, and holders of subordinated debt securities will be deemed to have agreed, that any subordinated debt securities are subordinate and junior in right of payment to all senior debt to the extent provided in the subordinated indenture.

Upon any payment or distribution of assets to creditors upon any liquidation or dissolution, assignment for the benefit of creditors, marshaling of assets or any bankruptcy, reorganization, insolvency, receivership, arrangement, adjustment, composition, or similar proceeding in connection with our insolvency or bankruptcy, the holders of senior debt will first be entitled to receive payment in full of all principal and any interest, penalties, fees, indemnifications, reimbursements, damages and other liabilities payable (including interest after the commencement or any bankruptcy proceeding at the rate specified in the applicable senior debt), on the senior debt before the holders of subordinated debt securities will be entitled to receive or retain any payment of the principal of, premium, if any, or interest, if any, on the subordinated debt securities.

We will not make any payments of principal and any interest, penalties, fees, indemnifications, reimbursements, damages and other liabilities payable, on the subordinated debt securities if:

- a default in any payment on designate senior debt then exists, or
- an event of default on any series of designated senior debt resulting in the acceleration of its maturity then exists.

When we use the term “designated senior debt” we mean, indebtedness, whether incurred on, prior to, or after, the date of the subordinated indenture, outstanding under a senior credit agreement or any other indebtedness for money borrowed that is issued as a replacement or refinancing of such debt facilities; and any other senior debt the principal amount of which is \$25.0 million or more and that has been designated by the Company to the trustee as “designated senior debt.”

When we use the term “senior debt” we mean:

- every obligation of, or any obligation guaranteed by the Company for money borrowed or purchased, including without limitation the designated senior debt,
- indebtedness of, or guaranteed by, the Company evidenced by bonds, debentures, notes or other similar instruments, or
- every obligation of, or guaranteed by, the Company associated with derivative products,

in each case unless the instrument creating or evidencing that debt or pursuant to which that debt is outstanding states that those obligations are not superior in right of payment to the subordinated debt securities or to other debt which ranks equally with, or junior to, the subordinated debt securities.

However, senior debt will not include:

- any liability for taxes,
- any intercompany indebtedness of our company, any of our subsidiaries or any our or their affiliates,
- any trade payables, or
- any debt of our company which, when incurred and without regard to any election under Section 1111(b) of Title 11 of the United States Code, was without recourse to our company.

The subordinated indenture provides that we may change the subordination provisions relating to any particular issue of subordinated debt securities prior to issuance. We will describe any change in the prospectus supplement relating to the subordinated debt securities.

### **Governing Law**

The indentures will be governed by and construed in accordance with the laws of the State of New York.

### **Concerning the Trustee**

We have appointed Wells Fargo Bank, National Association as the trustee under each of the indentures and as initial security registrar with regard to the debt securities.

We may remove the trustee with or without cause if we so notify the trustee six months in advance and if no event of default occurs during the six-month period.

### **PLAN OF DISTRIBUTION**

We may sell the debt securities described in this prospectus from time to time in one or more transactions:

- to purchasers directly;
- to underwriters for public offering and sale by them;
- through agents;
- through dealers; or
- through a combination of any of the foregoing methods of sale.

We may sell the debt securities directly to institutional investors or others who may be deemed to be underwriters within the meaning of the Securities Act, with respect to any resale of the debt securities. A prospectus supplement will describe the terms of any sale of debt securities we are offering hereunder. Direct sales may be arranged by a securities broker-dealer or other financial intermediary.

The applicable prospectus supplement will name any underwriter involved in a sale of debt securities. Underwriters may offer and sell debt securities at a fixed price or prices, which may be changed, or from time to time at market prices or at negotiated prices. Underwriters may be deemed to have received compensation from us from sales of debt securities in the form of underwriting discounts or commissions and may also receive commissions from purchasers of debt securities for whom they may act as agent. Underwriters may be involved in any at the market offering of debt securities by us or on our behalf.

Underwriters may sell debt securities to or through dealers, and such dealers may receive compensation in the form of discounts, concessions or commissions from the underwriters and/or commissions (which may be changed from time to time) from the purchasers for whom they may act as agent.

The applicable prospectus supplement will set forth whether or not underwriters may over-allot or effect transactions that stabilize, maintain or otherwise affect the market price of the debt securities at levels above those that might otherwise prevail in the open market, including, for example, by entering stabilizing bids, effecting syndicate covering transactions or imposing penalty bids.

We will name any agent involved in a sale of debt securities, as well as any commissions payable by us to such agent, in the applicable prospectus supplement. Unless otherwise specified in the applicable prospectus supplement, any such agent will be acting on a reasonable efforts basis for the period of its appointment.

If we utilize a dealer in the sale of the debt securities being offered pursuant to this prospectus, we will sell the debt securities to the dealer, as principal. The dealer may then resell the debt securities to the public at varying prices to be determined by the dealer at the time of resale.
